## CLIENTS

Techimpac's Quality Management System is a complex set of engineering and managerial activities that ensures the delivery of high quality software through the entire workflow. Techimpac has always taken an uncompromising position in respect to quality. The experiences from the project are ploughed back to refine the process. Continuous improvements help us meet milestones with no compromise on quality.

**Michael Jacob**  
Principal- SFS

I must say working with Techimpac & his team has been a pleasure. They took some broken code done by an earlier Company, streamlined it, & added some improvements. The site is more professional and faster! Great Job! They get the job done and they do good work.
